

Trading 2018 Classical & Modern

**Breukelen, Netherlands
January 13, 2018**

An intensive private class with **Dr. Alexander Elder**

Author, The New Trading for a Living & other international best-sellers

Based on a new e-book – *Step Two Trading*

(a free copy to every participant)

Breukelen, Netherlands

Saturday, January 13, 2017, 10 am – 5 pm

Dear Trader,

Get ready for the new challenges and opportunities of the new year. We'll review several proven psychological rules and technical methods and apply them to the current markets. You will learn three trading systems that will help you operate in various market conditions.

As markets continue to rise, we have to make critical decisions. Should we follow the trend and buy – and if so, should we hop in right away or wait for a pullback? Or could this be the time to start taking profits and selling short?

The truth of the matter is that both of the above approaches can be correct. Some stock groups are set to continue their spectacular rallies, while others are acting tired and starting to turn down. This class will give you the tools you need to identify both groups and trade them – in the right direction, with the right entries, targets, and stops.

Dr. Elder leaves his trading office only a few times a year to teach and travel – you have a rare opportunity to study with him. Everything in this class will be illustrated using current market examples. You'll see how to control risks and structure your homework.

Psychology: learn the best tool for developing discipline.

Technical analysis: learn to select indicators for catching trends and reversals.

Each trade deserves a name: Dr. Elder will teach you three trading systems.

Risk control: learn to set proper stops and manage trade sizing.

This class will focus on decision-making in **current markets**. Rather than dead PowerPoints showing the past, Dr. Elder will use trading software and current data.

You are welcome to ask about **specific stocks, futures, and currencies**. Imagine how useful it will be to see how a professional trader plans his trades in front of you. You will receive answers to your important questions.

As a special bonus for the January 2018 class, you'll receive access to Dr Elder's monthly webinars and weekend stock scans. Each Sunday in December and January you'll receive his lists of bullish and bearish finds. Dr Elder personally reviews all scan results and marks most attractive candidates. This service cost \$140 per month – but you'll receive it free as soon as you register.

Our class will be held on a Saturday at a **comfortable hotel**, where you'll meet other serious traders and talk with them during coffee breaks and at lunch. After the class you're welcome to stay for dinner with Dr Elder and other class participants. Most traders feel very isolated, but traders who meet at our conferences tend to stay in touch long after the class.
